Vessel Traffic Plan:

- To assist boaters in navigating through the correct channel, chains of red round buoys will be placed delineating the edge of the travel to the open channel, and prevent boaters from entering the closed channel.
- During any Coast Guard approved partial channel closure, one way vessel traffic shall switch directions every 5 minutes, upon direction of the red and green traffic signals.
- Flaggers on boats will direct traffic during daylight workings hours on the weekends.
- Electronic message boards will be mounted on either side of the channel.
- At various times law enforcement assets will be on-scene, to include Galveston County Sheriff’s Office, Marine Division, and U.S. Coast Guard, to ensure adherence to the established marine traffic management plan.
